

Operating as an extension of your storage team, Orchesys can plan, design, install, and integrate your new storage implementations. From concept to rollout, our industry certified storage specialists have the experience and skill sets required to make even your most complex storage projects a success.

METHODOLOGY

The Orchesys Storage Services Team deploys a proven approach for designing and implementing the most appropriate storage solutions to address your specific applications and business requirements. Our methodology ensures that the final design encompasses the requirements for capacity, performance, growth, security, compliance, migration, integration, time scales, and budgets.

BENEFITS

Vendor Independence

- We provide a vendor-neutral storage network design and architecture customized to your specific environment, application needs, and business priorities
- Our collaborative, non-partial approach prioritizes your needs and leverages your existing IT and storage investment

Reduced Risk

- We offer services based on proven methodologies and thousands of hours of experience in specialized practice areas
- With a contract based on our storage services experience, you will dramatically reduce the risk of missed deadlines or budget overrun

Peace of Mind

- Rely on Orchesys' reputation and proven track record based on our experience and heterogeneous storage skills
- Gain faster implementation times leading to earlier realization of your business goals

STORAGE CONSULTING SERVICES DELIVERABLES

At the highest level, Orchesys storage consultants deliver a successful project as defined by the jointly agreed and contracted statement of work (SOW). Working alongside your own staff, our consultants follow the established methodologies applied to engagements within our value chain of services.

Our value chain of storage consulting and implementation services cover:

- Assessment & Planning
- Architecture & Design
- Implementation & Integration

Across this full value chain, our skilled and experienced consultants cover:

- Storage Assessment
- Data Center Consolidation
- Business Continuity
- Managed Services
- Information Lifecycle Management
- Security & Compliance
- Enterprise Applications

Every engagement is closed with a formal transfer of information (TOI) process together with any necessary end user training.

ORCHESYS STORAGE SERVICES TEAM

Our team members are industry specialists with extensive experience in multiple aspects of data and storage management:

Architects design and architect the storage network solutions and create the implementation and integration plans.

Consultants/Senior Consultants work in tandem with your own teams to deliver the agreed upon implementation and integration services.

Project Managers provide leadership and own responsibility for end-to-end project delivery.

Our industry certified team has expertise with the following platforms:

- Network Appliance
- EMC
- Veritas
- Cisco
- Brocade/McData
- Decru
- Hitachi Data Systems

A BETTER SOLUTION FOR YOUR STORAGE SERVICES

Orchesys has a track record of exceptional customer satisfaction. We offer the security and peace of mind you've been looking for in your storage implementations.

Orchesys has successfully completed hundreds of customer engagements. Our reputation and reliability is such that the majority of our business has come from the storage vendors themselves, repeatedly engaging us to provide services to their own customers.

Engage the Storage Consulting Services used by major vendors—**ORCHESYS!**
